

# Connectix Cabling Systems™

## Connectix Couplers/Junction Box

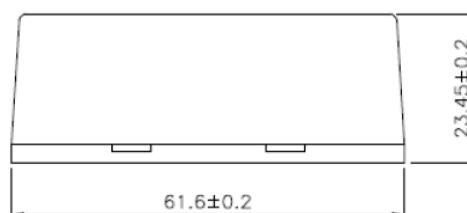

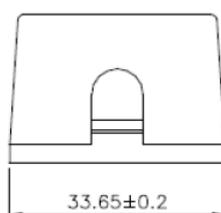

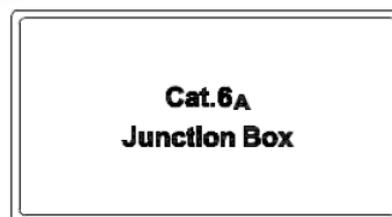

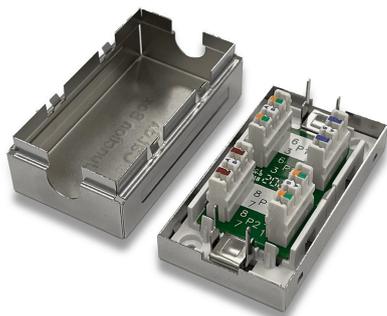

The Connectix Cat6/Cat6a Junction Box is perfect for joining two Cat6/Cat6a UTP/FTP cables to each other without the use of couplers and connectors.

It is a cost-effective and simple option if you need to extend a cable that is too short or if you do not wish to run a new cable altogether.

Can be secured to a wall or similar flat surface with screws and is compatible with both 110 and the Krone Style punch down tools.

### Features and Benefits

- Junction Box
- UTP / FTP / IDC
- Punch Down / Coupler
- Cat Cat6a / Cat6
