

Connectix UFO Fibre Distribution Box

The Connectix UFO Fibre Distribution Box (FDB) is suitable for internal or external use within Fibre-to-the-Home (FTTH) and Fibre-to-the-Business (FTTB) deployments.

The UFO FDB provides connections between backbone and horizontal optical fibre cables with midspan capability, PLC splitter holders, splicing and pre-connectorised formats.

The UFO FDB features EasySecure anchoring system, designed to hold cables in place securely and easily as specified in EN 61300-2-4. Splice tray cassettes and splitters can be added to create different configurations depending on the application, such as GPON or P2P. Confirming to IP55 rating the UFO FDB is a small, slimline multifunction fibre distribution box.

Features & Benefits

- IP55 rating
- Loading options for 1x4, 1x8, 1x16 steel tube/module splitter or pre-connectorised
- SC/APC simplex or LC/APC duplex adaptors
- Fibre management for splitters and incoming cables; storage cassettes and splice management trays and a protective fibre splice cover
- To main feeder cable in/out ports, max entry OD 15mm
- 1 x common feed gland entry point
- 6 smaller feeds out, max OD xx mm
- Compatible with Connectix break-out manifold (1.4cm x 6cm)
- 2 x splitter holders, max capacity 1 x 1:8 + 1 x 1:16 (LC or SC)
- Wall mounting internal or external use, pole mounting accessories also available
- GPON / POL Solution
- FTTH, FTTP, MDU, SDU, SMDU suitable

Product Specification	
Dimensions	346mm H x 232mm W x 77mm D
IP Rating	IP55
Splice protectors	40 to 60mm
Locking	EasySecure, anchoring torsion strength $\pm 90^\circ$ EN 61300-2-5
Anchoring System:	-20°C - 85°C
Material:	PP loaded fiberglass, UV resistant
Colour	Grey RAL7035
Capacity	24 LC ports (P2P) 1 x 1:8 + 1 x 1:16 PLC Splitter
