UFO Pebble

The Connectix UFO (Unseen Fibre Optics) is a discreet optical fibre cabling system designed for a fast and easy installation within a mixture of FTTX applications. UFO is the ideal solution in MDU retrobuilds where sites may be listed buildings, have congested and overrun pathways and where space for new containment is not an option.   There could also be old buildings where the risk of asbestos could be present and new cabling could cause financial or time delay issues.   Additionally, for aesthetically pleasing desired new builds and within SMDU or SDU installations, UFO provides a fibre optic consumer installation that's difficult to see and is unobtrusive to the consumer. Connectix UFO can easily be installed along door frames, floor and ceiling skirtings and along corridors within wall/ceiling joins.

The UFO Pebble is the optical fibre dispenser for the consumer area drop, available from stock as a 25-metre 1-fibre, bend insensitive singlemode G.657.B3 1.2mm cable. The UFO Pebble can be supplied as LC/APC and SC/APC connectorisation for patching to ONT/routing devices. With its slick circular looks, the Connectix UFO pebble suits wall installation in modern or traditional apartment spaces and is customer branded with your service provider logo.   The UFO pebble is quick and easy to install with the Connectix UFO Glue Gun and Midspan boxes, connecting back to the UFO vertical (riser) distribution cabling system.

Product Specification	
Application	FTTX, FTTB, MDU, SMDU, SDU, Retrobuild
Material Finish	White
Connector Type	LC/APC, SC/APC
Size	110mm Diameter x 28.75mm Deep
Temp Range	-20 °C to +65°C

Ordering Information	
Product Description	Part Number
Connectix UFO Pebble 25m 1.2m Cca Cord + 1m tail SC/APC to SC/APC	UFO-Pebble-025-1
Connectix UFO Pebble 25m 1.2m Cca Cord + 1m tail SC/APC to LC/APC	UFO-Pebble-025-2
