

UFO Ultra Slim Midspan Cable - Internal

The Connectix UFO (Unseen Fibre Optics) Ultra Slim Midspan cable is designed to be used inside Multi Dwelling Units (MDU) linking Connectix Midspan Boxes to riser distribution points through corridors. The OD is extremely small at just 2mm/3mm, enabling this cable to be discretely installed within wall and ceiling angles with minimum disruption to the developer or consumer interior finishes. Produced with bend insensitive singlemode G.657.B3 ITU-T optical fibre the cable can be installed around doorways, trunking and floor skirting using the Connectix Glue Gun. Designed to be installed quickly as part of the Connectix UFO FTTH MDU solution, the Ultra Slim Midspan cable has an excellent reaction to fire with a EuroClass rating of Cca-s1a-d0-a1 and fully complies to BS6701:A1.
