

UFO Midspan Box (Point of Entry)

The UFO Midspan Box (Point of Entry) connects from the UFO vertical (riser) distribution point and enables P2P or GPON cabling connectivity into the consumer apartment. Suitable for installation with the Connectix UFO Ultra Slim Midspan Cable the UFO Midspan box range allows a 2-24 fibre cable to be installed within a corridor or ceiling area and midspan into an apartment. The UFO Midspan box (Point of Entry) base plate manages the UFO midspan cable with a service management of up to 2-metre cable slack, can be supplied as a splice or connectorised LC/APC simplex or duplex and SC/APC simplex format and has fire clip install options.

The UFO midspan box is discreet, engineer friendly and available to be customer branded with your service provider logo.
