Customer Splice Point (CSP) x4e

Connectix slimline external Customer Splice Points (CSP) are suitable for use within Fibre-to-the-Home (FTTH) and Fibre-to-the-Business (FTTB) deployments.

The external Connectix CSP provides connectivity options inside and outside homes as a fibre distribution point within a multiple dwelling unit (MDU), small MDUs (SMDU) and within single dwelling units. The CSP interconnects ONTs at the consumer end and when installed as part of Connectix FTTx solution the system will deliver excellent performance with minimal loss.

Available unloaded or pre-loaded versions, external Connectix CSPs offer variations for 4-fibre LC/APC, LC/PC duplex or 2-fibre SC/APC, SC/PC simplex adapters, loaded with pigtails or 1:2 and 1:4 splitters. Within the external Connectix CSP is splice tail slack management suitable for most common fibre drop feeds including 900um and 1.8mm cables.
