

UFO Pebble

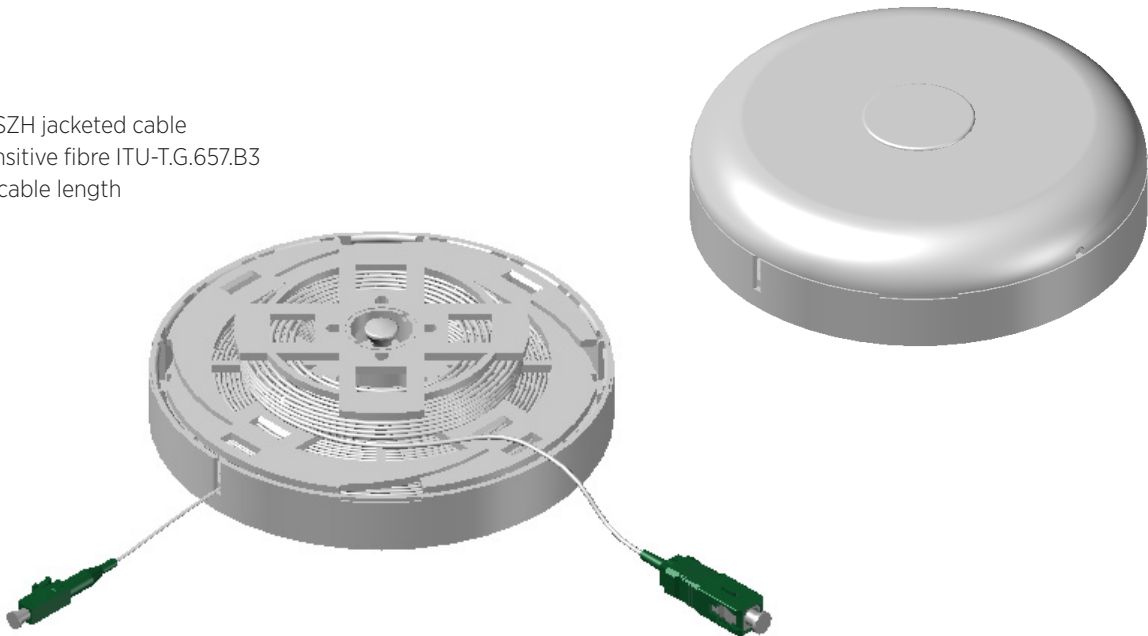

The Connectix Unseen Fibre Optics (UFO) Pebble customer connection solution is a rapid; deployable, spooled fibre solution which facilitates the connection of the customer to the UFO building distribution cabling system and the preferred internet service providers (ISP) network optical network terminal (ONT) device without the need for a separate customer connection patch lead.

Each Pebble is pre-fibred with a factory terminated & tested bend-insensitive single mode ITU.G.657.B3 assembly; 25 metres long with either SC/APC at both ends, or alternatively with SC/APC at one end to LC/APC connectivity at the other.

It's sleek, low-profile aesthetic design is ideally suited for modern, traditional apartment spaces and for use with the wider Connectix UFO portfolio. The Pebble offers installers an efficient and discrete cabling solution.

Features & Benefits

- Unique circular design
- 1.2mm Cca CPR rated LSZH jacketed cable
- Single mode bend-insensitive fibre ITU-T.G.657.B3
- 25 metre max. spooled cable length
- Surface mounted

Product Specification	
Application	Indoor FTTX, FTTB, MDU, SMDU, SDU, Retrobuild
Material	Material UV Stabilized UL94V0 ABS (Acrylonitrile Butadiene Styrene)
Material Finish	White
Connector Type	LC/APC, SC/APC
Fibre Type	Bend-Insensitive G.657.B3 (IEC 60793-2-50 B6.B3)
Fibre Count	1
Ferrule Material	Zirconia Ceramic
Cable Diameter	1.2mm
Fibre Mode	Singlemode (OS2)
Polish Type	APC
Size (W x H)	110mm x 28.75mm
Temperature Range	-20 °C to +65°C

Ordering Information	
Product Description	Part Number
Connectix UFO Pebble 25m 1.2m Cca Cord + 1m tail SC/APC to SC/APC	UFO-Pebble-025-1
Connectix UFO Pebble 25m 1.2m Cca Cord + 1m tail SC/APC to LC/APC	UFO-Pebble-025-2
