# Compact Euro Module – Category 6 UTP

Category 6 Compact Module is designed to provide one of the shallowest wall outlets on the market. They are the ideal solution wherever back–box depth is a problem. The attractive high gloss finish and easy to use labelling system are identical to all other Connectix Cabling Systems Modules, making them interchangable in most applications.

Category 6 Compact Modules can be fitted into single or dual gang faceplates and can be combined with quarter blanks and/or voice modules to provide the required configuration. The modules offer extended PowerSum characteristics and exceed the ANSI/TIA–568–C Category 6 Specification.
