Copper Cabling Solutions
Compact Module - Category 6 FTP

Connectix
Cabling Systems™

Category 6 Compact Module is designed to provide one of the shallowest wall outlets on the market. They are the ideal solution wherever back-box depth is a problem.
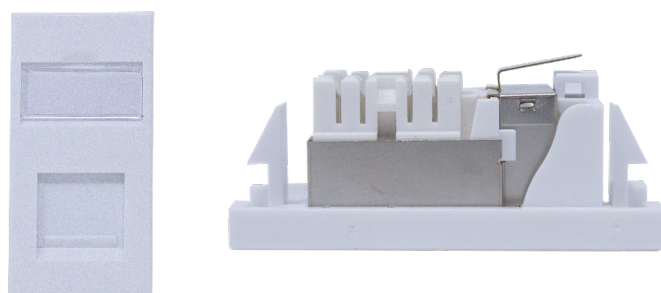

The attractive high gloss finish and easy to use labelling system are identical to all other Connectix Cabling Systems Modules, making them interchangable in most applications.

Category 6 Compact Modules can be fitted into single or dual gang faceplates and can be combined with quarter blanks and/or voice modules to provide the required configuration.

The modules offer extended PowerSum characteristics and exceed the ANSI/TIA-568-C Category 6 Specification.

Features & Benefits

- Suitable for Gigabit Ethernet applications
- Shallow design requires minimal back-box depth
- Interchangable with other Euro modules and ¼ blanks
- Industry standard IDCs
- Individually QA tested
- Also, available as PABX Secondary or Full Master Voice Module

Product Specifications	
Width	25mm
Depth	21mm
Height	50mm
Back-box depth	Minimum 32mm recommended
Material	Polycarbonate/ABS thermoplastic resin with grade UL94 VO at 1.5mm flame retardancy
Finish	High gloss
IDC Labels	Individual colour coded labels to T568B
Cable Guide	Integrated earth connection / cable tie position
Sockets	High performance shielded RJ45
IDC Blocks	4-way industry standard IDC blocks
Conforms to	ANSI/TIA-568-C.2 Category 6 Specification
