Elite Phone Host Panel

The Connectix Elite Phone Host Panel has been designed to allow for the integration of phone lines into a structured cabling network. It comprises of separate units that have a single input at the rear which is distributed to 4 outputs on the front.

The panel allows 4 extensions to share a single phone within each of the units. The units can be connected together giving the option of multiple extensions from a single panel.

The panel has been designed to match all the other panels in the Connectix Elite Panel range ensuring versatility and flexibility. A 12 port format is available specifically for the Connectix Home Cabling range.

Features and Benefits

- High Density 12 or 24 ports in 1u
- Custom logo service available
- Available in a range of colours
- RJ45 to RJ45/IDC connection
- 4 outlets from 1 input

Ordering Information

Product Description	Part Number
12 Way Elite Phone Host Panel	009-001-016-15
24 Way Elite Phone Host Panel	009-001-016-16

Product Specifications

Width	483 mm (19"), 260 mm (10")
Depth	30 mm
Height	1u (44 mm)
Material	Mild steel sheet CR4 to BSEN 10130-1999 DC01, Plastic inserts ABS thermoplastic resin with grade, UL94 V0 at 1.5 mm flame retardancy
Finish	Black powder coat BS6496
Socket Labels	9 mm numbered card with acetate cover
RJ45 Sockets	Unshielded vertical jacks
IDC Block	4 way industry standard IDC blocks
PCB	Groups of 4 identical circuits on 1.6 mm double sided PTH boards
Conforms to	TIA/EIA-568-C Enhanced Category 5 Specification
